OAKLAND COLLEGE SCHOOL!

IN this school the patron has the choice of several departments of instruction, all well graded.

THE JUNIOR DEPARTMENT

Is especially qualified to meet the wants of young boys.

THE SENIOR ENGLISH

Affords a thorough course of instruction in Elementary English Branches, Theoretical and Practical Business, the Practical Sciences and Art.

THE SENIOR CLASSICAL

Is designed for those who intend to prepare for a Collegiate Course—furnishihg the Preparatory Department of the College of California.—The Modern Languages receive especial attention.

For Catalogues or further information, address
I. H BRAYTON, Principal.
Aug. 10-tf Oakland, Cal.

PACIFIC

BUSINESS COLLEGE,

MECHANIC'S INSTITUTE,

POST STREET, Between Montgomery & Kerney
SAN FRANCISCO.

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,
VINSONHALER & DE LAGUNA,

A CARD

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support or the community.

RAILROAD AND STAGES.

CENTRAL PACIFIC RAILROAD.

WINTER ARRANGEMENT.

ON and after Monday, Nov. 11, until further notice, the trains of the Central Pacific Railroad will run as follows:

GOING EAST:

Passenger trains will leave Sacramento at 6:30 A. M. arrive at Cisco at 12 M. Accommodation and Way Freight Train at 2:30 P. M.; arrive at Colfax at 9 P. M.

GOING WEST:

Passenger trains leave Cisco at 6:45 A. M., arriving at Sacramento at 12:42 P. M. Accommodation and Way Freight train leaves Colfax at 6:10 A. M., arriving at Sacramento at 1:16 P. M.

Through Freight trains to and from Cisco

The morning Passenger Trains connect at Auburn with stages for Yankee Jims, Forest Hill, Michigan Bluffs, Greenwood and Georgetown; and at Colfax with stages for Grass Valley, Nevada San Juan, Camptonville, Forest City, Downieville and Iowa Hill; and at Dutch Flat with stages for Little York, You Bet, Red Dog and Nevada, and at Cisco with stages for Summit City, Austin, Virginia City, and all points in the State of Nevada.

The 6:30 A. M. up train connects at the Junction with the cars of the California Central Railroad for Lincoln and Marysville and all points north.

All trains run daily, Sundays excepted.

C. CROCKER, Superintendent.
sep1-tf

PIONEER STAGE COMPANY.

NEW ARRANGEMENT.

ON AND after MAY 8, 1866, the Coaches of the Pioneer Company will

Leave Cisco daily at 1 o'clock, P. M., for Virginia City, Nevada.

Returning, arrive at Cisco at 6:30 A. M.

This line connects at Colfax with the coaches for Iowa Hill, Grass Valley, Nevada, Marysville and all points north.

Office, at Wells, Fargo & Co.'s Express Office, Cisco. I. HAMMOND, Agent.

THE GREAT PRIZE

THE ONLY

GRAND CROSS OF THE LEGION

OF HONOR

AND GOLD MEDAL

Awarded to American Sewing Machines at the Paris Exposition of 1867, was given to us as per Imperial Decree, published in the Moniteur Universal, (official Journal of the French Empire) Tuesday, July 2, 1867.

THE HOWE

SEWING MACHINES,

Manufactured by the

HOW MACHINE COMPANY,

No. 609 Broadway, N. Y.

For Families and Manufacturers.

They are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine.

The New Improved Family Machine is without a rival, and cannot be surpassed—a Hemmer, Feller, Braider, Quilter, and Guide, go with each Family Machine free of charge.

Every machine is as near perfection as the best machinery in the world can make it.

They are adapted to all kinds of Family sewing and Manufacturing of every description, making a beautiful and perfect stitch, alike on both sides of the articles sewed, and will neither rip nor ravel.

The parts being exactly alike, if any part needs to be replaced, the operator can replace, it.

Loss of time and expense of sending to a machine shop rarely occurs.

The Best Machine in the World.

A WOMAN'S QUESTION.

Before I trust my fate to the
Or place my hand in thine
Before I let thy future give
Color and form to mine;
Before I peril all for thee,
Question thy soul to-night for me.

I break all slighter bonds, nor feel
A shadow of regret:
Is there one link within the past
That holds thy spirit yet?
Or is thy faith as clear and free
As that which I can pledge to thee?

Does there within thy dimmest dreams
A possible future shine,
Wherein thy life could henceforth breathe
Untouched unshared by mine?
If so, at any pain or cost,
Oh, tell me, before all is lost.

Look deeper still. If thou canst feel,
Within thy inmost soul,
That thou hast kept a portion back
While I have staked the whole,
Let no false pity spare the blow,
But in true mercy tell me so.

Is there within thy heart a need
That mine cannot fulfill?
One chord that any other hand
Could better wake or still?
Speak now—lest at some future day
My Whole life wither and decay.

Lives there within thy nature hid
The demon spirit change,
Shedding a passing glory still,
On all things new and strange?
It may not be thy fault alone—
But shield my heart against thine own.

Could'st thou withdraw thy hand one day
And answer to my claim
That fate and that to-day's mistake,
Not thou, had been to blame?
Some smooth their conscience thus; but thou
Oh, surely, thou wilt warn me now!

Nay, answer not—I dare not hear,
The words would come too late;
Yet I would spare thee all remorse,
So comfort thee, my fate,
Whatever on my heart may fall,
Remember, I *would* risk it all.

WONDERFUL ANTIQUITIES.

About three miles east of Newark, in the State of Ohio, have been found several ancient stones, bearing inscriptions in Hebrew. The first were found in 1860, and others since then, in a large mound containing human bones. They were taken to Cincinnati, where they have been carefully examined by learned Jewish rabbis. Some are of genuine *teraphim*, often mentioned in the Old Testament, which were a species of tutelary deities, and kept as protecting or ocular talismans. The figures of men and animals, together with Hebrew inscriptions, are engraved on these.

But there are two of these stones that deserve a more particular description. One of these is a wedge-shaped stone of a chocolate color, about six inches long by three inches wide, having four Hebrew inscriptions, one on each of four sides, the translation of which is as follows:

"The King of the Earth."
"The Laws of the Lord."
"The Word of the Lord,"
"The Holy of Holies."

Thus embracing a brief summary of Hebrew theology. The other sacred stone was found near eight miles south of Newark, in a mound from forty to fifty feet high, and five hundred and eighty feet around its base, from which thousands of loads of stone have been carted away. Small mounds of clay were found inside the large mound and in removing one of these clay mounds a coffin was found imbedded in tough fire-clay, containing human bones, and a locket of fine black hair from six to eight inches long, together with a number of copper rings. In a lower part of this fire-clay, an oblong, round stone box was discovered, having its two halves cemented together. Upon breaking this cement and separating the two halves, behold there was within the box this sacred stone, Upon it was engraved in Hebrew, the Ten Commandments. The stone was nearly eleven inches in length nearly three inches wide, and nearly two inches thick. The Ten Commandments are engraved on both sides; but on one side there is also the figure of a man in oriental costume, wearing a turban, a garment thrown over the shoulder, a vest for the breast, a flowing robe and girdle, with the left arm on the breast, and the Hebrew letters for Moses engraved over the head. The stone is arched at the end over the head, of the figure, around which the inscription runs.

One remarkable feature of these Hebrew letters is, that the V and Y are alike, and the final letters are wanting. This shows the great antiquity of the stone, for these first final letters were used after the Babylonish captivity. Fourteen letters also differ from those in use, and which have been in constant use ever since the return of the Jews from Babylon. The incorrect orthography also used shows the wandering of those that used it, and consequent loss of the purity of their old Hebrew literature. Probably these mounds and these deposits in them, were placed where they are now found long before the present race of Indians began to people the American continent. That they are relics of the long lost ten tribes of Israel can scarcely be doubted. The use of *teraphim*, the literary degeneracy shown in the Hebrew words used, the absence of letters used ever since the separation by the two remaining tribes, but not used before, as well as the confounding of two letters kept distinct since that time, all point directly to the descendants of the ten tribes as the authors of these wonderful monuments of antiquity. This branch of the Hebrew nation wandered into eastern Asia and northern Siberia, no doubt, and crossing by way of Behring Straits, finally came down into what is now the United States of America, where they lived and flourished, and left these remains.

SAVORY HINTS TO SMOKERS.—A correspondent writing from Spain, gives the following account of the manufacture of Spanish cigars:

The trade in tobacco is monopolized by the States and is farmed out to contractors. Its cultivation is prohibited in Spain, that privilege being enjoyed by Cuba alone. At Seveille is a very extensive tobacco manufactory, which employs two hundred women. The machinery for cutting is very primitive, and is driven by mules. The women are employed in making and putting up the little smokers—cigars and cigarettes. They are generally young; and barring the stench and filth, are not ill-looking. Halls hundreds of feet in length, are filled with them, each with a little basket of damped tobacco before her. Nearly one half, I should judge have babies; some on the floor, and some in their laps, and some in the tobacco baskets; It is possible that the babies have something to do with the moisture of the tobacco and the celebrated flavor of the Spanish cigars.—Be this as it may the perfume arising from these two hundred women and unknown number of babies, all manufacturing the narcotic, would satisfy, I should think, the most inveterate lover of the weed.

MONTREAL steamers to Europe will make Halifax a port of call at present, and when the Intercolonial Railroad becomes completed, the latter will be their port of destination.

RACES AND TYPES OF MANKIND.

Professor Paul B. Du Chaillu, the celebrated traveller and explorer, has just finished a course of lectures in New York upon the Races and Types of Mankind, which have attracted much attention. The following is a synopsis of the closing lecure:

The lecturer commenced by giving an interesting account of the habits of the various tribes that dwell in Equatorial Africa, referring to their idol worship, belief in witchcraft, rude theories of medicine, wedding and funeral customs, &c. From these he passed to an elaborate discussion upon the various races and types of mankind. He said that all the negro tribes of the present day must have been derived from one parent stock, who, like themselves, must have been negroes. The negro race he believes to be of very great antiquity—indeed, that it is one of the oldest races of mankind. He had noticed that upon both continents the populations are divided into many tribes, with many different languages. America possesses many beautiful buildings of great antiquity, particularly in Central America, which remind us of the high state of civilization and progressive power which were the property of the inhabitants of times exceedingly remote. In those portions of Africa which are the abode of the negro, travellers have searched in vain for anything to remind us that the negroes ever enjoyed a higher state of civilization than that which they now present. The Australian or Polynesian of this day seem to be in no way surperior or inferior to their progentiors, but from all that we can learn are as far removed from a condition of civilization as were their forefathers centuries before them. Geology has demonsrated to us that there was a time when man could not possibly have lived upon this planet, but that must have been a very great while ago, for careful and studious research have taught us that the creation of man dates back further than we are generally led to believe. When we look at some of the lower types and races of men, such as the Hottentots, Bushmen, Oboungeous, Australians, and various tribes of negroes, we shrink from a comparison of our selves with them, and the doubt ensues as to whether we all sprang from one primeval type. For not only do these people differ from us in color and the formation of their bony frames, but, above all, in the measure of intelligence. Their receding foreheads at once account for the inferiority of their intellectual powers, as compared with those of the higher races of men. For mankind to have come to such a state of disintegration as that which we now behold must have required a prodigious number of years. This we know of a certainty; but what that original type was, we cannot tell. We do not know what sort of people our first ancestors were. As far back as we have any historical record, we find the living types and races of men in the same relation to each other as they are at the present day. In the pictures on the ancient Egyptian temples, several thousand years old, the negro and Caucasian physiognomies are distinctly portrayed, and exhibit the same contrast as they would if taken to-day. These would seem to indicate the permanency of types among men, and has led many to believe that each race had a separate origin. It is probable that primative man was born in a warm climate, and gradually as he learned to protect himself from the inclemency of wintry regions he was scattered all over the world. The lecturer believed that all races of man, except the progressive Caucasian, are destined to extinction. The Hottentota and Bushmen being the lowest types of negroes, will disappear first, then will follow the lower order of the Mongolian race—the Australians, Polynesians, American Indians, &c. Civilazation will not stop this decrease, for it is impossible to raise up these inferior races to the standard of their superiors. To account for the gradual loss of the vital energy of nations the speaker could not; but that natons do thus lose their vitality he fully believed.—There is no doubt that when two races come in contact with each other in one country, a struggle for the ascendancy will ensue, and the more intelligent one must eventually conquer. The changes in the human race cannot be justly ascribed to climate influences, for these are not thus effective in our day. The American race at the Equator differs from the African Equatorials completely, and the varying tribes of Central Africa contrast strangly with their Arabian neighbors who dwell in the same latitude, with only the arm of a sea between them. A remarkable fact is that the disappearing races of to-day are not inferior physically to their progenitors—they have not been dwarfed. The intermixture of different families of the Caucasian race is benificial, and to this is to be ascribed the wonderful progressiveness of its people; but the intermarriage of two distinct types of men is most injurious.—If a superior marry an inferior, the latter is benefitted at the expense of the former; but the mongrel or hybrid will soon die out, for a third distinct type cannot be formed to live. To say that the races that are dying out should not be cared for and helped to the highest civilization of which they are capable in their decline, would be as unreasonable as to argue that because a man is slowly wasting away with consumption, and must die, we shoul not, therefore, care for him, or attend to his wants. In conclusion, Prof. Du Chaillu expressed great hopes for the future of the Caucasian race, believing, he said that its destiny is, by means of its progression, to overspread the whole earth, and to reign with a glory of which we can have no perception.

PURE WATER.—We wonder that travelers do not carry with them a little bottle of permangate of potass—a few drops of which will speedily purify any water. A friend of ours, who has just returned from India, tells us that he has derived the greatest benefit from its employment. In cases where the water was turbid, and tasting and smelling of decayed organic matter, the addition of a few drops of the solution of the permangate made it in a few minutes as clear and sweet as spring water.

NOVEL PROJECTILES.—Durring the battle of Antietam, a Confederate battery stationed on a hill near a blacksmith shop, ran out of metal. While some was being brought the gunners went into the shop, took hammers and iron, wrapped them in bagging, rammed them into their gun, and let fly at a Federal battery on an opposite hill. A German artillerist in the battery, seeing the tools and iron flying so profusely, exclaimed: "Mein Gott! ve shall haf te blackschmidt shop next!"

LAUGHTER.—Fun ought to be cherished and encouraged by all lawful means. People never plot mischief when they are merry. Laughter is an enemy to malice a foe to scandal, and a friend to every virtue, and brightens the intellect.

NINE ships are on the way to this coast from New York, principally laden with railroad iron.

LOLA MONTEZ.

The New York correspondent of the *Alta* gives the following reminisences of Lola Montez:

"You have already received explanation that the dead King of Bavaria is not the young ruler, but the old ex-King, who made himself conspicuous as the friend of Lola Montez. Will you excuse me if I gossip a little about Lola, and tell you a few particulars I received three or four years ago from the physician who attended her in her last illness and saw her buried. Lola was sick unto death; she lived in a little garret in Brooklyn, where she had scanty furniture and none of the luxuries of life. My friend, the doctor, then a young man just commencing practice, was called to see her, and was frankly told that she had but little money and might not be able to pay him. Trusting to fortune and the fame he might acquire from the matter, he accepted the situation and regularly visited his patient. One day a lawyer called upon him and said Lola was the owner of certain property in Munich, for which he (the lawyer) was authorized to pay $200,000. 'She is at full liberty to sell it,' said the man; 'it was given her by the King' and she has a perfect title; but if she does not dispose of it the property will revert to the Government at her death. Here are two papers if she will sign both of them in the presence of two witnesses we will pay two hundred thousand dollars at once.'

The doctor told me that he took the papers to Lola and explained the state of affairs. 'I did not,' said he, 'urge her to sign them, though I was very anxious she should do so. I told her she could place herself above want, and that no one in the world had a better title to the property than herself. You know she professed to have repented of her misdeeds and changed to a christian. On account of this she was in some doubt as to the propriety of receiving money from her Bavarian career. She took the papers and said she would think the matter over and answer me in a few days. Three or four days afterward, just as I was about to leave at the end of one of my visits, she called me back and said: 'I have thought that matter over and will sign the papers."

I called up a gentleman who lived in the house to join me in witnessing the signature. We arranged a table and gave her the pen, which she took without hesitation and began to write.

She signed one paper, writing with a clear hand, and then took the other.—When the signature was about half made, she suddenly dashed the pen to the floor, with the exclamation:

"It is the price of prostitution; I will never touch it."

This was the end of the matter. Neither of us ever spoke of the subject again, and she died without completing the signature. She was buried in Greenwood, where a simple slab, bearing the name of Eliza Gilbert, marks her grave. Her mother came to see her during her illness, stayed about three weeks and then returned to England. Her visit was as little as possible like a mother's, and its only object was to obtain titles to some property that the daughter was supposed to possess. On ascertaining that the latter was living in a state bordering upon destitution, the mother openly expressed her regret at troubling herself to visit America.'"

ON THE 28TH.—In looking over the files of the *Bee* we find that there was an earthquake shock at San Francisco on March 28th—those in the Sandwich Islands began on March 27th and continued till April 3d. Referring to the eruption of Mauna Loa the San Francisco *Call* says;

"It is more than probable that the recent extraordinary volcanic eruption in Hawaii, one of the Hawaiian Islands, has saved California from severe earthquake shocks, which would have proved disasterous in their results. The theory is that the interior of the earth contains vast caverns of pipes, extending north and south latitudinal branches running east and west. In these caverns internal fires cause gases and steam to generate, as steam generates in common steam-boilers. Of course, they must find a vent somewherere. If they cannot escape through the natural escape-pipes—volcanoes—they will force a passage elsewhere. In their violent efforts to escape, the confined gas causes the earth to shake and quiver with a greater or lesser intensity, according to the quantity of steam generated. Whenever the confined gasses and melted matter, called lava, find free vent through volcanoes, the shaking of the earth ceases; but often, in their attempts to escape, the earth is shaken and rent in a frightful manner. The volcano of Mauna Loa, on Hawaii is the largest in the world, the old crater being ten miles in circumference. It is eternally active, but overflowing only once in eight or ten years. At all seasons of the year, more or less smoke and steam arise from the crater. During the most quiet periods, visitors approach the brink of the crater—which is some seventy miles from the seacoast—and even descend its interior sides to a great distance. A thousand feet or more below the crest of the crater, can be seen, in its most quiet moments, a molten lake, nearly two miles in diameter, the melted matter boiling and bubbling like a pot of water over a hot fire."

A VERDANT youth thus explains the quadrille:

"We both bowed to both of us, then 'tother, then the fiddle tuned, and the thing started; grabbed her female hand, she squeezed mine, we both slung each other, but she slung the most because I think she loved me for a little while; then we changed base clear across the room, jumped up and down ever so many times, passed each other twice times, then my dear and me doesed a doe and hopped skiped home again (from a foreign shore), then we two forward four, 1 ladies changed, we X over, turned around twice, shaschayed sideways. I backed to place she dittoed; side couples to the right, to the left, side couples tother way, side couples turn geptleman, side couples turn ladies, ladies turn side couples, gentlemen turn side couples, head couples turn side couples, all hands round back again, 'first feller' take opposite side 'gal,' sling her around, take your own 'gal,' and t'other 'feller's gal,' forward and back, twist both gals two times, sling 'em to opposite 'feller,' let him do the same as you did, and back again to places; light gentlemen balance to the heavy lady, duplicate, promiade all, 'gals' get in the center, 'fellers, get hold of each other's hands, bob up and down, arms over ladies' waterfalls, ladies stoop, jump up and down, each 'feller' takes his 'gal,' back to places; right lady spin right gentlemen, left gentlemen spin left lady, all twist each other, do it over again, repeat once more, keep it up, all turn around, all turn the other, backward, sideways, each couple spin t'other couple, cross over, back."

EXTER, when some younger and more excitable prelate wished that there were preachers in the Church of England as eloquent as Spurgeon, when he dryly remarked "Thou shalt not covet thy neighbor's ass."

EARLY RISING.—Every circumstance contributes to render early rising advisable to those who are in the enjoyment of health. There is no time equal in beauty and freshness to the morning, when nature has just parted with the gloomy mantle which night had flung over her, and stands before us like a young bride, from whose aspect the veil which covered her loveliness has been withdrawn. The whole material world has a vivifying appearance. The husbandman is up at his labor, the forest leaves sparkle with drops of crystal dew, the flowers raise their rejoicing heads toward the sun, the birds pour fourth their anthems of gladness; and the wide face of creation itself seems as if awakened and refreshed by a mighty slumber. All these things, however, are hid from the eyes of the sluggard; nature in her most glorious aspect is to him a sealed book; and while every scene around him is full of beauty, interest and animation, he alone is passionless and uninspired. Behold him stretched upon his couch of rest! In vain does the clock proclaim that the reign of day has commenced! In vain does the morning light stream fiercely in by the chinks of his window, as if to startle him from his repose! He hears not, he sees not, for blindness and deafness rule over him with desperate sway, and lay a deadening spell upon his faculties. And when at length he does awake, far on in the day from the topor of this benumbing sleep he is not refreshed. He does not start at once into new life—an altered man, with joy in his mind and vigor in his frame. On the contrary, he is dull, languid and stupid, as if half recovered from a paroxysm of drunkenness. He yawns, stretches himself, and stalks into the breakfast-parlor to partake in solitude and without appetite, of his unrefreshing meal—while his eyes are red, his beard unshorn, and his clothes disorderly and ill put on. Uncleanliness and sluggishness generally go hand in hand; for the obtusness of mind which disposes a man to waste the most precious hours of his existence in debasing sleep, will naturally make him neglect his person.

A LITTLE girl dressed in bloomer costume who had been seated between her elder sister and her beau during a drive to the country, on her return accosted her mother thus: "Ma, ma, I won't ride with sister Jane and Thomas Smith any more, for he keeps a hugging and kissing her all the while. Now just see how he mussed my pretty bloomer hat," at the same time holding up to the astonished mother's view a dilapidated looking bloomer. "Susan! Susan! how can you talk so?" was the mother's exclamation. "It can't be possible that your sister allows Mr. Smith to take such liberties!" "Yes, but it is possible," was the reply of the mischievous little minx; "and, mother, she likes it, for she leans upon him just like brother Jack's guinea pig when he scratches his back."

MORAL BEAUTY.—What is the beauty of nature but a beauty clothed with moral associations? What is the highest beauty of literature, poetry, fiction, and the fine arts, but a moral beauty which genius has bodied forth for the admiration of the world? And what are those qualities of the human character which are treasured up in the memory and heart of nations—the object of universal reverence and exultation, the themes of celebration, of eloquence, and the festal of song, the enshrined idols of human admiration and love? Are they not patriotism, heroism, philanthropy, disinterestedness, magnanimity, martyrdom.

THE CHAMPION BRICK OF NEVADA.—We yesterday saw a gold brick from the Wilson mine, Pine Grove, which weighed 1,099.15 ounces, and is worth $20,346 02, being the most valuable bar ever molded in this State. The bar was molded and assayed by E. Rahling & Co., and is in every respect as smooth and perfect as anyone would wish to see. It is of a bright and beautiful color, being 895.6 fine. The bullion from which the brick was molded was brought to this city day before yesterday by Mr. Wm. Wilson, a principal owner in the mine. This brick speaks well for Pine Grove and for Nevada.—*Territorial Enterprise, May 5th.*

ACCIDENT.—The Oakland *News* of May 4th says that a boat was swamped by the steamer Washoe on the 11 o'clock trip from San Francisco on Saturday last. The occupants of the boat—two men—were having a lively time clinging to the bottom of the capsized vessel, when friendly assistance from a vessel lying in the bay came to their rescue. The Washoe boats were anticipated, else they would have rescued the unfortunate men.

ACCIDENT.—John Murray of San Jose, says the Santa Clara *Union*, was seriously injured at the race-track on last Saturday by being fallen upon by a horse. From what we can learn it seems that Murray was riding horseback and for some reason the horse was caused to rear up and fall back upon him, and as it was a little time before the bystanders could extricate him he was badly injured.

GOD SEES EVERYTHING.—A little boy had a wooden horse, and in course of time his tail, ears and legs got knocked off, and the toy presented rather a ragged appearance. One day says he: "God sees everything, don't he mother?" "Yes, my child."—"Well, I guess He'll laugh when He sees this horse."

BENEVOLENCE has not wholly died out. A ragged little girl in Brooklyn picked up a wallet containing $300 the other day, and running after the lady who dropped it, restored the property. For her honesty she received a reward of one cent.

GOLDWIN SMITH, in a lecture at Brighton, England, said that the root of monarchy in England was dead, and that the tie existing between Queen Victora and the English people was barely one of personal affection.

THE new town which has been started on Little Laramie is to be called Wyomming City. Many are moving from Dale City to the new town.

THE great struggles in life are limited to moments; in the dropping of the head upon the bosom—in the pressure of the hand upon the brow.

OLD Jaggles says he is bound to get a wife—and a young one at that. He should get the wife first.

EVERYTHING is said to be on the rise, provisions, clothes, etc. The ladies don't mind it, as the men pay for all the luxuries.

QUEEN VICTORIA has over thirty tons of silver and gold plate.

AN industrious inquirer has made the discovery that one acre of clover is capable if well manipulated by bees, to make 839 pounds of honey.

A No. 4 Washington Press, and a large size Ruggles'

JOB ENGINE.

The material is as good as new, and the presses in first rate order. Inquire at this office.

E. B. BOUST.

RENO ETC.—Of this new place a correspondent of the Virginia *Enterprise* says:

This place is named after the Federal General Reno, killed at South Mountain. For the benefit of those of your readers not of this vicinity I will endeavor to give an idea of its location.

On the eastern slope of the Sierras the Central Pacific Railroad follows down the Truckee River Valley and passes round north of the mountain group in which Storey county mines are situated. The point where this town is located is on the Truckee river; about five miles on the plain from the base of the Sierras, at the point located on the west bank of the river, and the site joins with the lands of Washoe United Consolidation G. and S. M. Co., the main entrance gate to that company's land being only two hundred and fifty yards distant from the railroad depot, and the town lots extending up to the company's fence. The town site lies for half a mile in length along the river, and extends back westward from the bank a little over a quarter of a mile. The railroad runs lengthrwise through the middle of the town, and the depot is in the centre. The street is widened on each side opposite the depot making a fine plaza around it. There are two rows of blocks each side of the railroad, and an average of six blocks in a row.

The site is a smooth sage-brush plain, with a uniform slope toward the river, ample for the perfect drainage, yet with a grade hardly perceptible to the eye. The Truckee, a beautiful stream of soft water, will furnish unlimited supplies of that most necessary article in the city economy, and not only for ordinary domestic uses, but all that may be needed to irrigate the whole site, so that if the people choose they may rival the fame of Sacramento city for gardens and trees.

We learn from the Carson *Appeal* that the sale of lots which took place there on Saturday last, realized nearly thirty thousand dollars. Lots were sold at all prices from twenty-five dollars to one thousand dollars—the highest. The railroad company have their road graded some thirty miles beyond this point, and the work is going on with lightning rapidity. New towns are being laid out every few miles, and fools enough are found to buy lots in each location to make the business of town—making a profitable one. None aspire to a less dignified title than a city, and a few, for instance Reno, claim no less pretensious name than that of a metropolis. A gentleman, usually sensible, assured us with the utmost complacency of countenance, that San Francisco had but little, if any advantage, in a business point over Reno. He said "San Francisco has the ocean commerce to sustain it, but Reno will have the great Pacific Railroad, with its machine shops and round-houses to sustain it." We only mention this instance to show how completely some men are carried away by every little excitement. No doubt Reno will be a good place for a few business men but it has nothing to build up a city on. We learn that two newspapers will soon be started there, and a third party who thinks that there will be business enough for three is making preparations to move to that point.

SOMETHING STRANGE.—Mr. E. H. Smithwick, of Texas Diggings, informs us that about four miles south of Emigrant Gap, near the trail between the two places mentioned, a hole has appeared in the ground—or rather the surface has fallen into a subterranean cavern. He says the hole is about twenty feet across at the surface, and that it gradually opens out to an unknown width; the jagged sides of the walls are plainly distiguishable for apparrently twenty feet below the surface of the water, which is about forty feet from the mouth of the opening, making the discernable depth about sixty feet; he has no idea of its real depth. The ground in that vicinity is what is known as cement, and always had the appearance of being solid. He says he will sound it some time when he is passing, and has promised to give us the result of his investigations. He says it is a sight worth going to see.

WE learn that an effort is being made by prominent citizens of Little York, to get the privelege of placing a mill on some one of the claims on the supposed blue lead at this place, for an interest in the claim. The matter has not assumed any definite shape yet.

THE Dutch Flat Company passed through the stratum which they struck some weeks since, and found another layer of gravel which they have also passed through and have now struck rock again.

GOOD YIELD.—McClure & Co. cleaned up a few days since, after a run of ten days, the sum of $2,000. They employ three men at a shift, and work night and day, use three pipes and theee hundred inches of water.

MAY PARTY.—It is the intention of the young folks, and also some old ones, to have a pic nic at Squires' Canyon to-day. The Sunday school scholars are to form in procession and march out.

MITE.—The meeting of the Mite Society at the Dutch Flat Hotel, on last Tuesday evening, was a complete success. The next meeting of the Society takes place at residence of Hon. E. Bradley, on next Tuesday evening.

THERE are thirty saw mills in the vicinity of Coburn's Station, Nevada county, which employ nearly two thousand men. The mills run night and day, and turn a small forest into lumber daily; so a friend informs us.

WE are requested to state that there will be a social dance at Pioneer Hall on next Thursday evening, to which the public are cordially invited.

TWO LATE.—A communication from Eliza Jane Tipton was received too late for this issue.

[COMMUNICATED.]

SAN DIEGO.

San Diego lies in latitude 32 deg. 40 minutes north, and about 500 miles southeast of San Francisco, at the southern extremity of the State, within twenty miles of the State line. The harbor or San Diego bay, is in the form of a crescent, eighteen miles long and from one to three miles wide, and in the estimation of many, the best harbor on the coast. It has a centre channel of deep water (from five to twelve fathoms), anchorage of excellent holding, and from one-half to one and one-half miles wide, and without a bar. The current caused by the ebbing and flowing of the tide is sufficient to remove all obstructions from it; protected completely from the winds of the north and west by Point Loma, a high, rocky promontory, that commands the entrance to the bay. Nature has done all but placing the guns for its protection, thus forming one of the safest and most beautiful harbors in the world, where the entire shipping of the coast could find a safe and ample anchorage. Why the Lord should have formed that noble harbor in such a sterile and desert place is more than has yet been revealed, yet we trust that some future generation may prove the wisdom of God in its location. When a Southern Pacific railroad is completed, connecting the Pacific with the Gulf of Mexico at Galveston, by way of El Paso, on the Rio Grande, it will not only open that great and fertile central plain, New Mexico, Arizona and Texas, but will develop, civilize and unite them with our sister republic, in revealing the riches and wonders of that hitherto unknown region. It will then become one of the great centres of commerce, direct on the route between China and Europe, with at least 600 miles, or four days nearer travel, our steamships will then come direct from Canton and other ports without making north 600 miles to reach San Francisco and then shipping the goods back again to reach the Eastern States and Europe; San Diego harbor will then, and not till then, bless the world's commerce, by resting its weary ships on its soft and placid bosom.

The climate is, perhaps, all that could be desired, or, at least, can be found on this continent, and even the soft and balmy breezes of Italy cannot surpass that of San Diego. This will appear to every intelligent mind when I state the official record of the climate for the last fourteen years; The extreme heat in summer seldom over 80 deg., the highest in that time 84 deg.—The extreme of cold seldom below 56 deg., the coldest 51 deg, making a mean of 68 deg., with a variation of only 12 deg. in main. This is from official records, and I need make no comments, for I can add nothing; such a climate, and such a harbor, has San Diego, and when you have said this you have said all that is now worth saying.

The Town of San Diego.

The old town is near 100 years of age—a Spanish town, with old dilapidated walls, fences and houses or hovels, with no public halls, school houses or plaza or public walk, garden, orchard, or any other thing that would attract a stranger, not even a public house such as would satisfy a fastidious person in the least; no Protestant church or Sabbath, a fair representation of a Spanish Catholic town.—A great lack of pure morals, enterprising men and religeous truth; but a plenty of filth and squalor, and whiskey that would kill at "three shots;" as a proof of the latter remark, on the first morning after our arrival, there were nine persons found *dead* on the public street or walk. I mean they were found dead drunk, and strange to say six whites, two Indians, and one Mexican composed this company of sufferers, that were shot down in the street, without even the charities of a hospital, or sanitary commission. Neither would I charge this wholesale murder or man slaying, to St. Patricks festival or to the good Saint himself, "at all, at all," although the town was filled with worthy patrons of the good old Saint, who seemed ardently attached to him; for the class that were slain did not bear the symbol, or dialect, of the good old Saint, but were *Americans*, educated within the pale of Christian homes and churches, with Sunday school and Bibles, chaste and loving sisters, and no doubt prayers ascend from loving and anxious hearts for their welfare, in the far off Eastern home of their innocence and youth.—But one thing puzzled me and that was how one or two Greasers or Mexicans could shoot six white Americans down "dead" in one night and leave them in the street with two drunken Indians and not be arrested for murder or even manslaughter; and how strange that Americans of the Caucassian blood, can drop down into the ruts, and grovel where the Mexicans have walked for a hundred years and never rise higher in the scale of existence is strange, "passing strange." Does the world "wag on or backward." With the people of San Diego there are a few exceptions to this criticism. Behold Indians in the street in a state of nudity, half-breeds little better clad, and belles of the "higher walks of life," clothed in silks, promenade the streets with equal freedom and innocence, without molestation from a police officer. Thanks to the accomodating climate that adopts itself to man's circumstances and conditions. Public entertainments are to many old, but to me it was both rare and novel—bull, and cock fights with their associations. But shame and confusion to myself and company, that when were serenaded by the San Diego band and minstrels, in martial array, which consisted of four horse-fiddles played by four experts, and the clicking of bones, accompanied with a wild bull with a straw man astride, and the necessary attendants to keep him within bounds or rather in bonds, with lariat and horse, we did not know enough to make a speech or give a toast, save a boy from the "Green Isle," who hurrahed for the Fenians, which seemed to be appreciated by the natives, and became "scape goat" to bear away the sins from our guilty heads. The new town of San Diego is situated six miles from the entrance of the harbor, and is "beautiful for situation." for a city; it could not be surpassed as regards the plot of ground, which is about one mile square, and laid out in regular form, facing the bay or harbor. This one mile embraces all the land that is of any value whatever. This town was laid out quite a number of years ago, and a few houses were built then, but they are now dilapidated, a Government post was then established, a wharf built and a large house for government purposes. The wharf is entirely destroyed but the house remains. Four or five families are there anxiously awaiting the developing of a young Southern San Francisco. Lots are held at from $25 to $100 in the old plat, and can be bought for even less in Horton's Addition; to "actual settlers" he proposes to give a lot, provided they will build thereon a good house. The great drawback has been the lack of water, this was one reason why Government removed to Wilmington and abandoned the post.—But I saw a well, and drank of its water, which Mr. Horton has dug, and which is only forty feet deep; whether it will stand the drought of summer is yet to be tested.

There is no wharf, and to reach the deep water would require one a thousand feet in length. I could learn of no steps being taken to improve the harbor, or build wharves or docks or any substantial improvements whatever, notwithstanding the assertions to the contrary by parties who were much interested. The country surrounding San Diego is a barren waste.—High rolling land, called by some table land, but a very uneven table land, covered with sage brush or as some call it, greasewood, and cacti or cactus as commonly called, with a sprinkling of grass and flowers. I saw it in its most "queenly dress," April, after a wet winter, when "mother earth there had put on her best attire," and tried to smile on all her sons. She did all she could to satisfy the craving of her children and yet I turned away in sadness, with the conviction that I was hard to please. The cause is simple, and is the lack of water. The rain guage of the last fourteen years gives the solution. The average of rain fall is in round numbers nine inches—this is the great lack of this part of the State—near the coast (I am speaking of within twenty-five miles), there is no water to saturate the soil, consequently, it can never become an agricultural country, and hence can never become a great and rich country. The rain-fall ranges from three to thirteen inches the last fourteen years. I learned from persons who lived forty miles back that the land was more fertile, and the rain-fall much greater. But are there no fertile spots near the city? Yes, two small valleys, the San Diego creek valley; and Sweetwater, both empty into the bay; each has a narrow strip of bottom soil, perhaps a half mile wide and five or six miles long; these valleys are good for vegetables and could be made very productive and would supply a small city with vegetables. ‡

COMMUNICATED.

AT CHURCH AGAIN.

MR. EDITOR:—I had the presumption to attend church again last Sunday evening. My friend, the parson, went after Lamech and his two wives in old Calvanistic style, he found them in the 4th chapt. of Genesis and pinned the husband to the wall. That portion of the sermon which bore upon the text was well conceived, was mtheodical and delivered with force, without any of that hesitancy and evasion which characterizes timidity and false modesty. Lamech, the first polygamist and bigamist, as well as homocide! Here was a theme worthy of the parson: The servant of the Lord girded on his breastplate of righteousness and wielded the sword of the church in a manner that, at once, showed him the master of his text. With great vehemence and denouncation the plurality of wives and declared it an insult, even to the "*billy-goat*" to class a fetcherous polygamist with dumb brutes: but lacking, probably, that technical and elegant language which should clothe and cover the naked ideas such a [illegible] would surely suggest to a [illegible] prehensive genius, [illegible] the peculiar force of [illegible] of San Francisco as [illegible] derful—but dingy [illegible] Capricornus luminary [illegible] gar, upon the Pacific coast, the [illegible] goat) he soon exhausted his limited vocabulary, and advanced upon a review of his former sermon; "creation of matter," "Man's origin" &c. In my former article I said, "who affirms the Mosaic account of *man's origin* must plant himself firmly upon the *Mosaic chronology*." This he did. A naked assertion may be either true or false, but it can never be proved except by induction, or by induction and deduction combined; a false assertion can summons none but false assertions and false reasonings to its support. So here, we see the parson, to support *one bare assertion*, bringing to his aid another, equally nude and far more vulnerable. The first evening he construed scripture litterally, upon the second figuratively, Allegory and metaphor can never prove an assertion to be either true or false, its only use is to demonstrate without proving. Well the parson used the old argument, that, "the morning and the evening was the first *day*," and the second *day* and so on, did not mean a literal day of 24 hours, nor did Mose's *morning* and *evening* have any connection with the rising and setting of the sun, but each day refered to a long period of time, for "a day with the Lord is as a thousand years, and a thousand years as a day." Admit it, what then? What becomes of our day of rest and divine worship, the seventh day on which "God ended his work and rested from his labor?" Does it come only once in seven thousand years and is it a thousand years of duration? Was the old chronicler metaphorical in saying that "God made two great lights, (the stars also) the greater to rule over the *day* and the lesser over the *night*, to divide light from the darkness, and the *evening* and the *morning* were the *fourth day*?" Can it be that the parson is *honest* in asserting a belief in the truth of even a figurative interpretation of this scripture? or is he simply talking for his fee as an attorney at law would argue a cause for his client, regardless of the right and the truth? Does he not know that one absurdity begets another? He is said to be a man of learning, is he also one of those who "compass the sea and land to make one proselyte, and when they have succeeded make him two fold more the child of hell than themselves?" In confermation of Mosaic chronology and creation he cited the *opinion* of a geologist who had recently visited the bone caves of France in which human bones are found with those of extinct mammals, "that the human bones were quite modern, lying above those of the brutes in a more recent strata of earth, hence the Parson's hasty deduction that the human bones found might have been, reasonably, the bones of men overwhelmed in the flood of Noah's time; another assertion equally as absurd as the two first is this story of the great deluge, unsupported by facts, reason or common sense. To rest his argument on the opinion of *one man* upon *one fact* gathered from a passing observation in *one locality* is an unfair mode of teaching his hearers. What Mr. Parson, of the bone caves of England; the Kitchen Middens of the Baltic shores and those of our own State, which last have not, as yet, been much explored; of the lake dwellings of Switzerland and Ireland; the forest beds of the Norfork Cliffs, the deposits of the alluvium of the deltas of the Nile, the Mississippi and the Thames rivers; of the human skull lately found in our own State embeded in gravel 156 feet below the surface, overlaid by seven or eight distinct alternate strata of gravel and volcanic lava? In the valley of the Nile 200 shafts have been sunk in different lines across the valley from east to west, some reaching below the level of the sea. At all depths yet reached numerous evidences of man's existance have been found. Burnt bricks are there found to the depth of 75 feet. Say nothing of the lapse of time from his first origin till he would collect in tribes, towns and nations, and establish any thing like governments, and become civilized enough to invent and make, or even to conceive and desire the use of burnt bricks, and admitting that man is no more ancient than the brick he formed, and allowing two and one half inches (a high estimate) per century for the filling up of the valley, by the annual overflow of the Nile, we find that brick in the mud at the debth of 72 feet have been buried over 30,000 years, many having letters of language engraved upon them. Every year—almost every month—swells our list of facts, and "still the work goes bravely on" Let us remember that the moss had grown gray upon the Egyptian works of art, (works which remain to this day) before the Southern Cross went down beyond the distant ocean from the horizon of the Baltic. Away with the Mosaic chronology! Away with every thing that obstructs scientific research and investigation, and a wide spread diffusion of the knowledge of scientific discoveries! The time has past when a clergyman can argue an old fable to be a divine and God-given truth without being considered an ignoramus or a hypocrit. It is more charitbale to accuse his ignorance, and we should always extend the right hand of charity. Of Biblical chronology and the story of the Deluge, the parson said "their truth was confirmed by scientific research and discoveries;" that "especially, our most eminent geologists admitted and substantiated their truth as probable." Not so, Mr. Preacher, they do not take them into account, scarce notice them, but pass them by in silent contempt, as dead, buried, and past resurrection. And of this I am ready to verify. To educate the national intellect by presenting to the people all the evidence, pro and con, bearing upon a given subjec is a noble calling; it leaves each mind to form its own conclusion, arrive at its own conviction, and thereon established its own belief. Why should it be perverted to a strengthning of *credulity* instead of the developing of *inellect*?

The effect of the parson's sermon was wonderful; in conclusion he exhorted his hearers to form a "Young Men's Christian Association" in this town; after the meeting adjourned, some of the prominent young men—*pillers* of the church—went at it most vigorously and labored diligently till the "wee-small hours" of the morning; they were actuated by, and freely under spiritual influence. As new converts are always the most zealous, so too, in this instance nothing could stay their ardor, or cool their devotion. They formed at once and commenced their *opening* choros and continued to open it until about 2 o'clock A. M. at which time the *deacon*, who had been out proselyting, suddenly appeared and took away their *organ*; this is supposed by some to be the organ upon which Jubal, the son of Lamech, played, for the parson described it as a *pipe* or a *horn*. Thus ended the first meeting of this new order. Their sonorous melody would have frightened away [illegible] San Francisco earthquake, as [illegible] appeared to them to [illegible] ving sign-boards were [illegible] street in every direc- [illegible] had a most exhilarating [illegible], causing spi[illegible] inspi- [illegible] down through [illegible] their [illegible] ing up to every [illegible] nals. Our [illegible] company [illegible] for another such pyrotechnical display might consume the entire town. Enough, this letter is already to lengthy, yet I have given what I call the errors of a sermon scarce an introductory notice.

O.

B. F. HOLLIS.—Of this some what ubiquitous individual the Grass Valley *National* says: "A letter received by a gentleman in this place informes us that a Democratic paper is soon to be started in Marysville, by B. F. Hollis. He was recently elected one of the officers of the Grand Army of the Republic in this place, since which time, however, he has repented and will in the future espouse the cause of Democracy and the Union."

We think Hollis had better take the advice we tendered him some time since, when he talked of starting a Union paper at Grass Valley, that is to stick to his legitimate business of painting. He is like a flea, when you think you have got him he "aint thar."

MR. MAJOR JOHN STRATMAN, the world-renowned, liberal and courteous newsdealer of San Francisco, will accept our thanks for his bounteous gift of newspapers and periodicals to this office. Among the papers sent us we notice the following:—*New York Ledger*, *Harper's Weekly*, *Harper's Bazaar*, *New Sensation*, *New York Weekly*, *Illustrated London News*, *Nix Nax*, *Merrymen's Monthly*, *etc.* Stratman's philanthropic spirit has caused the heart of many a poor "knight of the quill" to bound with renewed vigor.

GIVE THE DEVIL HIS DUE.—The *Record* credits us with the story of the Stockton farmer and his large purchase of grain sacks; we copied the article from the *Reporter* and neglected to give credit. Our extreme modesty forbids our claiming the works of others.

IT is reported, says the *State Capital Reporter* that the Gold Hill *News* has passed into the hands of an association of printers, and that W. A. Selkirk, of this county is to be the editor.

WE return thanks to Senator Conness for some ten or fifteen copies of valuable public documents, and three volumes of bound congressional Globes.

SINGULAR FACT.—We have been informed by one of the proprietors of the claim known as the Wisconsin claim, situated in Placer county, near Colfax, says the Sacramento *Record*, that about once in every three months they are compelled to excavate their main tunnel about one foot. It seems that the tunnel is dug through a talcous substance, which, as soon as the air and light is let in upon it, begins to raise up or swell so much so as to in many instances crush the supporting timbers. What is most singular, it does not seem to close up from the sides or top of the tunnel, but only raises up from the bottom. The class of stone called talc, or tallow stone, which is a kind of mineral magnesia, will expand when put through a heating process; but we have never heard of any kind of earth or stone expanding to the above degree, by either heating or any other process whatever. This is a subject for the investigation of geologists and scientific men, and we generously leave he matter with them for their conclusions in regard to the same.

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

LUKIN'S

WINES AND LIQUORS,

332 Nontgomery Street,

SAN FRANCISCO.

HOTELS AND RESTAURANTS.

DUTCH FLAT HOTEL,

MAIN STREET, DUTCH FLAT

CHAS. SEFFENS.....Proprietor.

THIS HOUSE BEING NOW FULLy completed and arranged in all its appointments presents greater inducements to transient as well as permanent customers than any other establishment of the kind in the mountains. The proprietor having been in the business for a number of years, flatters himself that he is sufficiently known as a caterer to public taste to warrant their support.

LARGE AIRY ROOMS,

with clean bed linen well ventilated are requisites that should not be dispensed with but which are ALWAYS found at this house.

THE TABLE

will always be found supplied with the latest delicacies of the season, and polite and willing waiters always in attendance. In connection with the house is a BAR ROOM, always supplied with the best

WINES, LIQUORS and CIGARS,

to be had in the market. An experienced barkeeper constantly at hand to wait upon customers; also a fine Billiard Table where parties may play this healthful game FREE OF CHARGE.

SUMMER RETREAT!

To families and all strangers in the mountains the proprietor would say that Dutch Flat presents all the inducements of a Summer Retreat, being located on the line of the Pacific Railroad at a convenient and pleasant distance from the city, is easy of access to those whose means are limited and require fresh air kind treatment and good living. All the proprietor asks is an opportunity to prove the correctness of the above assertions.

LIVERY STABLE.

Connected with the hotel is a first-class Livery Stable, where

Carriages and Horses

can be had for all parts of the country. Parties supplied with carriages with or without drivers.

Carriages from this hotel will be found at the depot on the arrival of every train. jy24.

WRIGHT'S RESTAURANT,

MAIN STREET, DUTCH FLAT.

THE PROPRIETOR respectfully informs the public that he has opened a first-class Restaurant where the

VERY BEST MEAL

may be obtained at all times at the most reasonable prices.

Attending personally to the interior arrangements of the house, the proprietor pledges himself to use every exertion to accommodate all who may give him a call in a manner unsurpassed by any house in town. f19-tf

STARR'S EXCHANGE,

Head of Main Street, Colfax.

THIS HOUSE, SITUATED AT the most central locality in Colfax, and Colfax being the center of a radius of the most prosperous mountain towns in the State, presents an eligible point from whichto gather the most reliable information of the mining, commercial and social advantages of the most populous portion of the country. Being located but a few steps from the railroad depot presents every advantage desirable to the traveler or resident. Every accommodation furnished to make it a home for families as well as a pleasant stopping place for transient customers. Connected with the house is a first class

LIVERY STABLE!

where horses and carriages can be obtained for all parts of the mines. Parties furnished with every description of conveyance at the shortest notice and on reasonable terms.

TO THEATRICAL COMPANIES.

The undersigned has fitted up an elegant hall for theatrical and dancing purposes; and having procured all the paraphernalia necessary to the use of heatrical exhibitions is now prepared to accommodate all who may call.

B. H. STARR, Prop'r.

OLD CORNER SALOON.

JOHN MEYER.....PROPRIETOR

THE PROPRIETOR WOULD respectfully announce to the public that he has just fitted up a first-class saloon on the corner of Sacramento and Main streets, where he will at all times keep the

BEST WINES AND LIQUORS

to be had in the market, and invites all his old friends and customers to give him a call, assuring them that nothing will be offered for their acceptance but the best. no23 tf

The trains stop at each of the depots sufficient long to accammodate passengers.

Seffens' accommodation wagon leaves the Dutch Flat Hotel in time to connect with the up and down trains.

PREACHING at the Union Church to-morrow morning at the usual hours.

THERE will be preaching in the M. E. Church on Sunday at the usual hours, morning and evening.

SAUCELITO FERRY.—A ferry has been established between San Francisco and Saucelito, says the *State Capital Reporter*, which may properly be regarded as an event of more than ordinary importance to both localities. The late vote given in Sonoma county for the construction of a railroad from the north, with its ultimate terminus at Saucelito, and then connected by ferry with San Francisco, will give increased prosperity to the northern portion of the city, and will make of Saucelito a business depot for a large extent of country. San Francisco is thus getting surrounded by railrord terminus which seem far more advantageous to her, as well as to the surrounding country and the railroads, than if in the heart of the city. A San Francisco paper of the 11th says:

The opening of a ferry line between this city and Saucelito, yesterday, was a marked event in our everyday matters. Thousands availed themselves of the opportunity of visiting the slopes and dells of Saucelito and vicinity, for the merest trifle of expense. There is no spot in our surroundings more attractive than this locality, and citizens will show their appreciation of the facilities opened up to them for getting there.

SAD AND FATAL MINING ACCIDENT.—On Wednesday last, at Smith's Point near Yankee Jims, while two men named Wm. Carter Dyer and —— Hodge, were tappidg a tunnel in their claim, which had become clogged by the caving in of the walls, the obstructions suddenly gave way and the water rushing in with fearful velocity swept the men through the tunnel a distance of about 300 feet. During their involuntary ride through the tunnel they were swept over two falls, one 12 and the other 30 feet in height. Dyer was dead when found. The other man, Hodge, was found clinging to a precipice some 30 feet high, and had he fallen he would have been crushed to a jelly on the sharp and jagged rocks below.—*Stars and Stripes.*

AFFRAY.—About 10 o'clock, on Tuesday night, says the Nevada *Gazette*, a man named Fountain, residing at Red Dog, was standing in John Maguire's saloon on Pine street, when John Boyce came in and called for a drink, asking Fountain to join him. This, Fountain made an illhumored reply, and then threw a tumbler at Boyce. The missile struck the unfortunate man on the temple, cutting him severely. The Marshal arrested Fountain, who had to appear before Justice Kendall yesterday and was fined $30 and cost.

SUICIDE AT NEWCASTLE.—On Thursday of last week at about 10 o'clock P. M. a man named Ferdinand Helbs was stabed and killed by a man named Heaber. The parties had been drinking and had some difficulty during the forepart of the evening. An inquest was held upon the body of the deceased on Friday, by Justice Rice. The jury found the fact of the killing as above stated, whereupon Heaber was committed and is now in jail.

MRS. HARRY THOMAS was advertised at St. Louis, April 13th, to walk 100 miles in 24 hours, an average of over four miles an hour will try Mrs. Thomas' bottom.—*Appeal.*

Perhaps this is all right, but we'd like to know how the *Appeal* man found it out.

BORN.

On Yankee slough, Placer county, April 7th, the wife of Charles Luce, of a daughter.

At Michigan Bluffs, April 28th, the wife of A. D. Bullard, of a son.

SHERIFF'S SALE.

NOTICE is hereby given that by virtue of an order issued out of the District Court of the Fourteenth Judicial District of the State of California, in and for the county of Placer, on a judgement rendered in said Court on the 6th day of May A. D. 1868, in favor of E. M. Hall and against J. L. Gould, for the sum of two thousand nine hundred and ninety-five 21-100 ($2,995 21) dollars in gold coin of the United States, one thousand three hundred and twenty-six 45-100 ($1,326 45) dollars of which sum is to draw interest at the rate of two (2) per cent. per month, and one thousand six hundred and sixty-eight 76-100 ($1,668 76) dollars of which sum is to draw interest at the rate of ten (10) per cent. per annum, and all costs and accruing costs, I will sell at public sale to the highest bidder for cash, at the Court house door in Auburn, county of Placer, California on Saturday, June 6th, 1868, at 11 o'clock A. M., the property described in said order of sale as follows, to wit: All that certain mining ground known as the Bay State Company's claims, lying and being situated near the Milk Ranch Saw Mill, in the Mountain Spring Mining District, near the town of Dutch Flat, in the State of California, county of Placer, bounded and described as follows, to wit: Commencing at a stake about four hundred feet from Canyon Creek, running thence westerly along the line of Abeel's mining ground twelve hundred (1200) feet to a stake, thence thirteen hundred (1300) feet to a stake on unclaimed ground at the date of said mortgages, thence easterly along a line of stakes 600 feet to a stake a little to the south of the Indianna Hill Ditch, thence running southerly along the ground claimed by Goddins & Co., and the grounds claimed by Benton and Co., at the date of said mortgages, eight hundred feet along the line of Benton and Company's claim, and the southerly line thereof to a stake, thence running southerly two hundred and fifty feet to the place of beginning.

All of which named and described property I will sell, or so much thereof as may be necessary to satisfy the Judgment, interest, costs and accruing costs.

J. H. NEFF,
Sheriff of Placer county.
By T. J. NICHOLS, Deputy Sheriff.
Auburn, May, 13, 1867. 16td

SOME years since, while residing in the city of Providence, we heard much said in Praise of Perry Davis' Pain Killer. We listened incredulously to these testimonials. Well health failing, as a last resort, the doctors sent us to Minnesota. The winter was intensely cold, and a terrible form of Neuralgia prevailed among the settlers, and we fell into the grasp of the disease, and day and night, for weeks, endured untold agony. Many remedies were tried without avail. One day, however, a stalwart frontiersman entered the room, bearing in his hand a vial partly filled with a reddish liquid. It was some of the Pain Killer. He had bought in California three years before, and had kept it with miserly care until then. Applying it externally and internally gave immediate relief. Since then, we have recommended it successfully in cases that baffled the best medical skill; and, when we see persons reject this remedy, we recall our own experience, and think that the time may come when pain incurable by other agents, may teach them the value of this great discovery.—*Home Monthly.* c21 1m

---

READ THE FOLLOWING:

Gents—This is to certify that I have found ALLEN'S LUNG BALSAM one of the best remedies in the world for diseased Lungs. I have used it in my family for breaking up a troublesome cough with the happiest effect.—I recommended it to a young lady who had a harrassing cough and was threatened with Consumption, and it cured her in a few days. I would recommend it to all those predisposed to Consumption. Respectfully Yours.

A. A. HARRISON, Cincinnat, O.

L. B. BOWIE, Druggist, Uniontown, Penn., writes April 4, 1866: Allen's Lung Balsam has performed some remarkable cures about here.—I recommend it with confidence in all diseases of the throat and lungs."

STERLING BROS., Druggists, write from Carolton, O., Jan. 27, 1867: "Send us six dozen Allen's Lung Balsam. We are entirely out of it. It gives more general satisfaction than any other medicine we sell."

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skilful Doctor the sickand troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 546, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he in sist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

MEDICAL.

R. R. R.

1 BETTER THAN 10.
SARSAPARILLIAN!
(PREPARED FROM VACUO.)

The Curative Principle of Sarsaparilla enters largely into the composition of

R. R. R.
RESOLVENT.

One Bottle of Resolvent Better than Ten Large Bottles of Sarsaparilla.

One Bottle will Purify the Blood, and Expel Corruption from the Body!

So swift is this remedy in entering into the circulation, that it has been detected in the blood and urine in six minutes after it has been taken.

☞ 1 BETTER THAN 10 ☜

R. R. R. Resolvent cures with astonishing rapidity every form of Chronic, Scrofulous and Skin Diseases, and exterminates all corruption from the human system.

One bottle of Dr. Radway's Renovating Resolvent contains more of the active curative principles of the best Jamaica Sarsaparilla, (Sarsaparillian,) than Ten of the largest size bottles of the mixture sold under the name of Sarsaparilla.

The process adopted by Dr. Radway in securing extracts (prepared in vacuo,) of Medicinal Roots, Plants, Herbs, and other vegetables possessing great curative properties over Scrofula, Chronic, Syphilic and skin diseases, that enters into the composition of the Renovating Resolvent, produces only ONE OUNCE of the pure extract out of 20 lbs of crude roots. The Inert matter that enters so generally in the large bottle mixtures and prepared under the official or pharmacopeia formula, is, by Dr. Radway's process, cast aside as rubbish.

One teaspoonful of the Resolvent is sufficient for a dose for all Skin, Salt Rheum, Pimples, Blotches, Sores and Eruptions of the Skin, Humors in the Blood, &c.

One teaspoonful, three times a day, will, in a few days, make the Blood pure, the Skin clear, the Eye bright, the Complexion smooth and transparent, the Hair strong, and remove all Sores, Pimples, Blotches, Pustules, Tetters, Cankers, &c., from the Head, Face, Neck, Mouth and Skin. It is pleasant to take, and the dose is small.

The first dose that is taken seizes on the disease and commences its work of resolving away all diseased deposits, Purifying the Blood, and driving corruption from the system.

The Renovating Resolvent, if used in any of the following named complaints, will posltively cure the patient:

Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofula, Syphilis, Fever, Ulcers, Sores, Salt Rheum, Erysipelas, Rickets, Scald Head, Cankers, Sore Legs, White Swellings, Glandular Swellings, Boils, Nodes, Sore Ears, Sore Eyes, Strumous Discharges from the Ear, Opthalmia, Itch, Constitutional Debility, Skin Eruptions, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuraigia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of Passing Water, Calculous Deposits &c.

ALARMING INCREASE OF BLADDER, KIDNEY and CALCULOUS DISEASES.

The annual reports of the Health Commissioners of different cities, show a great increase of deaths from diseases of the Kidneys and Urinary Organs—RADWAY'S RENOVATING RESOLVENT is the only remedy *that has dissolved* calculous concretion.

Its SOLVENT, *diuretic, lithontriptic* and *tonic* properties exceed that of any medicine in the world; it readily assimilates with the fluids, and promotes their exit through the Kidneys, Urethra and Bladder, removing calculous obstructions, and correcting all derangements of these organs.

So swift is this remedy in passing into the circulation, that it has been detected in the urine in six minutes after it has been taken; by adding to the liquid when cold a few pieces of starch, then a few drops of nitric acid, the liquid will change to a blue color. When brick dust, or a thick white deposit, like the white of an egg, (albumen,) is detected in the vessel, or bloody discharges from the urethra, or micturating in drops, accompanied by a burning or scalding pain—the RESOLVENT should be used and R. R. R. RELIEF rubbed on the spine. &c.

RADWAY'S PILLS being an aperient, soothing, and tonic laxative, are the only purgative medicine safe to administer in these difficulties; their mild soothing and healing properties produce evacuations without irritating the mucous membranes of the bowels, kidneys, ureter, bladder, &c., or causing straining when at stool.

Price of Resolvent, $1 per bottle, or 6 for $5. Pills 25 cts. R. R. Relief, 50 cts. per bottle. Principal Depot, 87 Maiden Lane, N. Y. Sold by all Druggists and Country Merchants.

For Sale by

REDINGTON & CO.S' COLUMN.

REDINGTON & O.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

REDINGTON & CO.,
SOLE AGENTS for the PACIFIC COAST.

STOP THAT COUGHING!

SOME OF YOU CAN'T, AND WE pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to superce all similar preparations. It is not surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

NEWELL'S
PULMONARY SYRUP.

GRAEFENBERG
UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

REDINGTON & CO., Agents,

As a remedy to purify and cleanse the blood leaving it free from humor and impurities,—we assert with confidence that there is nothing better than SCOVILL'S BLOOD AND LIVER SYRUP.

SCOVILL'S
BLOOD AND LIVER SYRUP HAS NO EQUAL AS A BLOOD MEDICINE IT IS NO SECRET MEDICINE, AS THE FORMULA HAS BEEN PUBLISHED IN MEDICAL BOOKS, AND IS USED EXTENSIVELY BY PHYSICIANS AS THE MOST RELIABLE MEDICINE KNOWN FOR THE CURE OF SCROFULA, WHITE SWELLING, AND ALL DISEASES GROWING OUT OF AN IMPURE STATE OF THE BLOOD THOUSANDS WILL TESTIFY TO ITS VALUE

REDINGTON & CO.,
Sole Agents,
416 and 418 Front st. San Francisco.
[c15 y]

S.T-1860-X.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease,"

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach set all its machinery at work, and enable it to resist and throw off the approaching danger The tendeny of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y.

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy frend.
ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS.
Superintendent Soldiers' Home,
Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

Sold by all Druggists, Grocers and dealers throughout the world.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific coast

MEXICAN
MUSTANG
LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES. EAR ACHE,
SPRAINS, SWELLINGS.
FRESH CUTS OR WOUNDS,

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Sold by all Druggists and Stores in every town and mining camp on Pacific coast.
[k6-yis]

DUTCH FLAT ENQUIRER.

A GERMAN TRUST SONG.

Just as God leads me I would go
I would not ask to choose my way;
Content with what He would bestow,
Assured He will not let me stray.
So as He leads, my path I make,
And step by step I gladly take,
A child in Him confiding.

Just as God leads I am content;
I rest me calmly in His hands:
That which He has decreed and sent—
That which His will for me commands,
I would that He should all fulfill,
That I should do His gracious will
In living or in dying.

Just as God leads, I all resign;
I trust me to my Father's will;
When reason's rays deceptive shine,
His counsel would I yet fulfill;
That which His love ordained as right,
Before He brought me to the light,
My all to Him resigning.

Just as God leads me, I abide
In faith, in hope, in suffering true!
His strength is ever by my side—
Can aught my hold on Him undo?
I hold me firm in patience, knowing
That God my life is still bestowing—
The best in kindness sending.

Just as God leads, I onward go,
Oft amid thorns and briars seen;
God does not yet his guidance show—
But in the end it shall be seen
How, by a loving Father's will,
Faithful and true, He leads me still.
[*Lamperlus*, 1625.

THE annual report of "The Quicksilver Mining Compan" (which owns the New Almaden mine), says the San Francisco *Alta*, for the year 1867 has reached this city from New York. It states the production of the mine last year was 24,461 flasks, the average yield of the ore being 9.82 per cent. The actual cost of production, exclusive of $21,000 paid for fences, buildings, etc., was $495,585 39. In three years and a half from the 1st of July, 1864, to the 1st of January, 1868, during which time the mine had been under the management of Mr. Butterworth, the expenses were $2,789,455 39, including $159,623 47 for permanent structures, and the net gain on the mine proper was $1,947,420 35. The furnaces have a capacity to smelt 7,000 flasks per month. The Company had a floating debt of $76,000, of which four-sevenths was gold, but the President expected that it would be paid off before the 1st of May. The arrangement with Barron & Co. for the sale of quicksilver was to expire on the 1st of April.

MAXIMILIAN'S bond holders in Paris recently held a meeting, at which it was stated that the total amount of their loan to his short-lived empire, was $58,283,424 in gold. This they think the French Government ought to pay, as it set up and guaranteed the Empire in Mexico.

DEFINITE.—A shoemaker, intending to be absent for a few days, lamp-blacked a shingle with the following, without date and nailed it upon the door: "Will be home in ten days from the time you see this shingle."

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorder prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout,	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY 8 Maiden Lane, New York and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

Dealers in my well-known medicines can have Show Cards, Circulars, &c., sent FREE OF EXPENSE, by addressing Thomas Holloway, 80 Maiden Lane, New York. k9-1y

MERCHANTS & Manufacturers'

JEWELRY ASSOCIATION.

193 and 195 Broadway, New York City.

Of Rosewood Pianos and Melodeons, Fine Oil Paintings, Engravings, Silver Ware, Gold and Silver Watches and Elegant Jewelry, consisting of Diamond Pins, Diamond Rings, Gold Bracelets, Coral, Florentine, Jet, Mosaic, Lava, and Ladies Sets, Gold Pens, with gold and silver extension holders, Sleeve Buttons, Sets of Studs, Vest and Neck Chains, plain and chased gold chains, &c., &c., valued at

1,000,000,

FOR ONE DOLLAR.

The Merchants' and Manufacturers'

Jewelry Association

Calls your attention to the fact of its being the largest and most popular Jewelry Association in United States. The business is and always has been conducted in the most candid and honorable manner. Our rapidly increasing trade is a sure guarantee of the appreciation of our patrons for this method of obtaining rich, elegant and costly goods. The sudden stagnation of trade in Europe, owing to the late German war, and recent disastrous financial crisis in Europe, has caused the failure of a large number of jewelry houses in London and Paris, obliging them to sell their goods at a great sacrafice, in some instances less than one third the cost of manufacturing. We have lately purchased very largely of these bankrupt goods, at such extremely low prices that we can afford to send away finer goods, and give better chances to draw the most valuable prizes than any other establishment doing a similar business. OUR AIM IS TO PLEASE, and we respectfully solicit your patronage, as we are confident of giving the utmost satisfaction. During the past year we have forwarded a number of the most valuable prizes to all parts of the country. Those who patronize us will receive the full value of their money, as no article on our list is worth less than one dollar, retail, and there are no blanks. Parties dealing with us may depend on having prompt returns, and the article drawn will be immediately sent to any address by return mail or express.

The following parties have recently drawn valuable prizes from the Merchants' and Manufacturers' Jewelry Association, and have kindly allowed use of their names.

Frederick V. Browne, Esq., Treasury Department, Washington, D. C., Piano, value, $450; Miss Anna L. Frost, Waverly Terrace, N. Y. city, Ladies' Gold Enameled Diamond Set watch—value, $300; William B. Emmons, New Orleans, La., Sewing Machine, value, $75; George L. Davenport, Mobile, Ala., Silver Tea Set, value, $200; Miss Lucy Orcutt, Albany, Ill., Sewing Machine, value, $65; Mrs. Mary J. Downing Louisville, Ky., Gold Watch, value, $200; James B. Fowler, Harrisburg, Pa., Silver Hunting case watch, value, $75; Rev. William Peyster, Milwaukie, Wis., Wheeler and Wilson Sewing Machine, value, $125; J. J. Bickford, San Francisco, California, Gold Lined Silver Tea Set, value—$300; Edward L. Rice, St. Louis, Mo., Melodeon, value, $250; Miss Helen E. Sinclair, Detroit, Mich., Diamond cluster ring, value, $225; Horatio G. Frost, Chicago, Ill., Large oil painting, value, $300; Mrs. Charlotte E. Hewins, Doniphan, Kansas, Chickering Grand Piano, value, $760, and Music Box, value, $65.

Many names could be placed on the list, but we publish no names without permission Our patrons are desired to send U. S. Currency when convenient.

PARTIAL LIST OF ARTICLES TO BE SOLD

For One Dollar Each,

without regard to value, and not to be paid for until you know what you are to receive:

1 Chickering Grand Pianos, worth	$500	to $700
15 Elegant Rosewood Pianos	200	to 400
15 Elegant Melodeons R'wood cases	175	to 220
50 First-class Sewing Machines	40	to 300
75 Fine Oil Paintings	30	to 100

175 Gold Watches	85	to 150
300 Ladies' Watches	60	to 100
500 Silver Watches	20	to 7

Diamond pins, Brooches and Ear Drops, Ladies' sets of Gold and Coral, Jet and Gold, Florentine and Mosaic, Lava and Cameo; Sets of Studs, Vest and Neck Chains, plain and chased Gold Rings, Gold Thimbles, Lockets, new style Belt Buckles, Gold Pen and Pencils fancy Work Boxes, Gold Pens with Gold and Silver Extension Holders, and a large assortment of Fine Silver Ware and Jewelry of every description, of the best make and latest styles.

A chance to obtain any of the above articles for ONE DOLLAR, by purchasing a sealed envelope for 25 cents.

*** Five Sealed Envelopes will be sent for $1; Eleven for $2; Thirty for $5; Sixty-five for $10; One Hundred for $15.

Agents Wanted Everywhere.

Unequalled inducements offered to Ladies and Gents who will act as such: Our descriptive circulars will be sent on application.

Distributions are made in the following manner: Certificates naming each article and its value are placed in sealed envelopes, which are well mixed. One of these envelopes containing the certificate or order for some article will be delivered at our office, or sent by mail to any address, without regard to choice, on receipt of 25 cents.

On receiving the certificate the purchaser will see what article it draws and its value, and can send One Dollar and receive the article named. Purchasers of our sealed envelops may, in this way, obtain an article worth from one to five hundred dollars.

Long letters are unnecessary. Have the kindness to write plain directions. Orders for Sealed Envelopes must in every case be accompanied with the cash, with the name of the person sending, and Town, County and State plainly written Letters should be addressed to the managers, as follows:

PATENT MEDICIN.

HELMBOLD'S BUCHU.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRRITATION OF THE NECK OF THE BLADDER, INFLAMATION OF THE KIDNEYS CATARRH OF THE BLADDER, STRAGUARY OR PAINFUL URINATING.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC

is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

FOR FURTHER INFORMATION

see Professor Dewee's valuable works on the Practice of Physic.

See remarks made by the celebrated Dr. Physic, of Philadelphia.

See any and all Standard Works on Medicines.

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and with ut prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,
GEO. H. KEYSER, M. D.,
140 Wood street, Pittsburg, Pa.
August 11, 1865.

ASK FOR HELMBOLDS FLUID EXTRACT BUCHU.

From the Largest Manufacturing

CHEMIST IN THE WORLD.

I am acquainted with H. T. Helmbold; he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WM. WEIGHTMAN (firm of Powers & Weightman),

Manufacturing Chemists,
Ninth and Brown streets, Philadelphia.

The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are

GENUINE PREPARATINOS.

and knowing that the intelligent refrain from using anything pertaining to Quacker, or the the Patent Medicine order—most of which are prepared by self-styled doctors, who are too ignorant to read a physician's simplest prescription, much less competent to prepare Pharmaceutical preparations.

THESE PARTIES RESORT

to various means of effecting sales, such as copying parts of advertisements of popular remedies and finishing with certificates.

The Science of Medicine stands SIMPLE, PURE, AND MAJESTIC, having fact for its basis, induction for its pillar, truth alone for its capital.

A word of Caution.

Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.

EVERY FIRST PREMIUM!

Awarded on Family Sewing Machines in the last five years. If there is a Florence Sewing Machine within one thousand miles of San Francisco that is not giving entire satisfaction, if I am informed of it, it will be attended to WITHOUT Express charge or expense of any kind to the owner.

SAMUEL HILL, GENERAL AGENT.
111 Montgomery Street,
a24 y68 San Francisco.

Grover & Baker's
ELASTIC STITCH
FAMILY
SEWING MACHINES,
Are the best in Use,
FOR THE FOLLOWING REASONS:

They are more simple and durable easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other. They sew all fabrics from two common spools, require no re-winding of thread, fasten both ends of the seam by their own operation, and though every fifth stitch is cut the seam will not rip.

They Stitch, Hem, Fell, Cord, Bind, Tuck, Quilt, Gather, Braid, and Embroider. No other machine Embroiders, as well as Sews perfectly.

MEDICAL.

PRIVATE Medical INSTITUTE,
Established by
DR. J. C. YOUNG, IN 1850,
For the cure of all Private Diseases and
ALL FEMALE COMPLAINTS.

CONSULTING OFFICE,
536 WASHINGTON STREET,
SAN FRANCISCO.....CALIFORNIA.
NO CURE, NO PAY.

Consultation by letter, or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Private Medical Institute,
No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

Sent by Mail or Express, to any part of the State.

The GREAT FEMALE MEDICINE! PREVENTIVE POWDERS for MARRIED LADIES. New, Safe and Infallible, lasting from four to six months. Price, $10. French Lunar, or Female Monthly Pills, for suppressions. After fifty years of use these Pills stand unrivalled in efficacy. Price $5 per box.

MEDICAL.

FRENCH MEDICAL OFFICE

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc., The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

All communications confidential je22-1y

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S Private Medical and Surgical Institute,

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Dohertv, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

Address,
W. K. DOHERTY, M. D.,
San Francisco, California.

Spermatorrhœa.

DR. DOHERTY has just published an important pamphlet embodying his own views and experiences in relation to Impotence or Virility, being a short treatise on Spermatorrhea or Seminal Weakness, Nervous and Physical Debility consequent on this affection, and other diseases of the Sexual Organs.

This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage.

Address,
W. K. DOHERTY, M. D.,
no6 tf San Francisco, Cal.
